## 1. Introduction

The ultimate solution to your Treo®600/650 headphone problems: Freedom. With Freedom, you can finally listen to mp3's and audio with any headphone and no longer have to deal with the speaker phone.

Freedom detects whether or not there is a headset, and plays your sounds through the headset if it's plugged in, or the Treo speaker if there's no headset available.

Freedom is more than just redirecting audio to the headset. Freedom can auto answer the call if the headset is plugged in. Perfect for users who don't have access to the Treo phone.

You can also use Freedom to remote control PocketTunes™ or AeroPlayer™ by using the headset button. You can go to the next or previous track, pause/resume and skip x number of seconds with PocketTunes™.

Other features includes turning on the Phone on every soft reset, disable system alarms during a voice call and do not allow 3<sup>rd</sup> party calls.

Freedom works with the Treo®/PalmOne® supplied headphone and all other headphones that is compatible with the Treo®.

## 2. System Requirement

- Treo® 600/650
- 40K of free memory.

### 2.1 Compatibility

- Handspring® or Palm® Treo 600/650
- Freedom is compatible with Bluetooth® add-on on the Treo® 600
- Freedom is **not** compatible with Bluetooth® wireless headset on the Treo® 650

## 3. Installation

To install Freedom™ double click on the file Freedom.prc and then press the HotSync® button on the cradle. The HotSync® manager will install the file Freedom.prc on to your Palm.

## 4. Launching Freedom

To launch Freedom™ look for the icon in the Launcher and tap on it.

### 4.1 Registering Freedom

After you had purchased Freedom you will need to send your HotSync ID as shown exactly to [support@toysoft.ca](mailto:support@toysoft.ca) along with your purchase invoice for the registration code.

# 5. User Interface

Diagram 1: Main Screen.

Headset/Ear Bud Setup	Enable audio redirect to speaker, headset and Handset. Set redirect to speakerphone if headset is plugged and auto answer.
MP3 Button Control Setup	Set up button remote control for PocketTunes™ or AeroPlayer™
Misc. Options	Configure soft reset, disable System alarms and disable 3 <sup>rd</sup> party call.

## 5.1. Headset and Ear Bud Setup

<input checked="" type="checkbox"/> Enable redirect audio to headset	If this check box is checked then Freedom will automatically switch between speaker and headset. If headset is plugged in then audio will be heard on the headset.
Manual Audio Output: Speaker Head Set Handset	You can manually select the audio output by tapping on the Toggle box.  Speaker – the speaker phone Headset – the headset plugged into the Treo Handset – the speaker that you hear from the ear.
Always output in: Mono Stereo	In headset is selected you can force to output to Mono or Stereo.
Switch speaker after: ▼ Disabled	Set the number of seconds before Freedom redirect the ringtone to the speaker. This is handy if you plug in the headset and you are not there to answer the call.
Auto answer after: ▼ Disabled	Set the number of seconds before Freedom auto answers the incoming call. Freedom will only auto answer if the headset is plugged in. Freedom will not auto answer if you get a 3 <sup>rd</sup> call.

## 5.2. MP3 Button Control

Freedom supports the Treo® ear bud headset button. You can map the headset button to: Rewind the current song, play the next song in the PlayList or Pause/Resume playback.

*We have only tested with the PalmOne ear bud and Freedom may not be compatible with other headset button.*

<input type="checkbox"/> Allow button press while sleep	If this is checked you can use the headset button to control the mp3 player while the Treo is turned off. <b>Note: this will use up battery. If you turn this feature on your battery will mostly likely be drained in one day.</b>
<input checked="" type="checkbox"/> Stop player when i get a call	If this is checked Freedom will pause the mp3 player when you get a call.
<b>Headset button support:</b>	Assign action to each button press
Fast/Rewind Seconds: 5	Set the number of seconds to rewind or forward the song. This is for PocketTunes™ only.
Audio Player: ▼ PocketTunes	Select the mp3 player. Currently only PockeTunes™ and AeroPlayer™ are supported.
<input checked="" type="checkbox"/> Enabled	Enabled must checked in order to use the headset button as a remote control.

### 5.3 Misc. Setup

<input checked="" type="checkbox"/> Turn on phone after soft reset	Turn on phone's radio after every soft reset
<input type="checkbox"/> Disable alarms during calls	Disable system alarms when you get a call. <b>Note: Freedom should be the only application to disable system alarms. If other application have already disabled the system alarms system crash may occur. By disabling system alarms it may also cause other applications not function probably.</b>
<input type="checkbox"/> Do not allow 3rd party calls	If this is checked do not allow 3 <sup>rd</sup> party calls.

## 6. External Audio Jack Support

If you have a external jack that plugs into your home entertainment system you can use Freedom to redirect the output to it. On the Treo® 600 if Freedom does not auto detect or you don't get Stereo output then manually go to Freedom Headset/Earbud setup screen and tap on Handset and Stereo.

## 7. Freedom API for Developers

If you are developer and want to control the audio redirection then contact us at [support@toysoft.ca](mailto:support@toysoft.ca) for the API and documentation.

## 8. User License

(a) Toysoft, Inc. Hereby grants you a non-exclusive license to use its accompanying software product ("Software") according to the following agreement:

(b) You may: Distribute the Software if your application is freeware.

(c) You may not: Distribute the Software if your application is shareware or commercial.

(c) You may not: permit other individuals to use the Software except under the terms listed above; modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on the Software; copy the Software (except for back-up purposes); rent, lease or otherwise transfer rights to the Software; or remove any proprietary notices or labels on the Software.

**Toysoft, Inc. reserves all rights not expressly granted to Licensee.**

## 9. Copyright

Ownership rights and intellectual property rights in and to the Software shall remain in Toysoft, Inc. The Software is protected by the copyright laws of Canada and international copyright treaties. This License gives you no rights to such content.

## 10. Disclaimer

(a) **DISCLAIMER OF WARRANTY.** The Software is provided on an "AS IS" basis, without warranty of any kind, including without limitation the warranties of merchantability, fitness for a particular purpose and non-infringement.

(b) You and not Toysoft, Inc. assume the entire cost of any service and repair. In addition, mechanism implemented by the Software may have inherent procedural limitations, and you must determine that the Software sufficiently meets your requirements.

(c) This disclaimer of warranty constitutes an essential part of the agreement.

## 11. Limitation of Liability

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, TORT, CONTRACT, OR OTHERWISE, SHALL TOYSOFT, INC. OR ITS SUPPLIERS OR RESELLERS BE LIABLE TO YOU OR ANY OTHER PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES.

## 12. Termination of License

This license will terminate automatically if you fail to comply with the limitations described above. On termination, you must destroy all copies of the Software
